

Motivate...

The common-ground that your staff and your customers meet on is one of your most important strategic assets. Your message can transform your business culture through reinforcing values and recognising accomplishments. Ariadne provides a vital marketing channel, driving positive and relevant messages at the right place and the right time.

Ariadne creates brand consistency and reinforces unified messaging regardless of facility location.

Ariadne is designed to enhance environments — providing guests with real-time information about hotel meetings, events or general points of interest.

Guide...

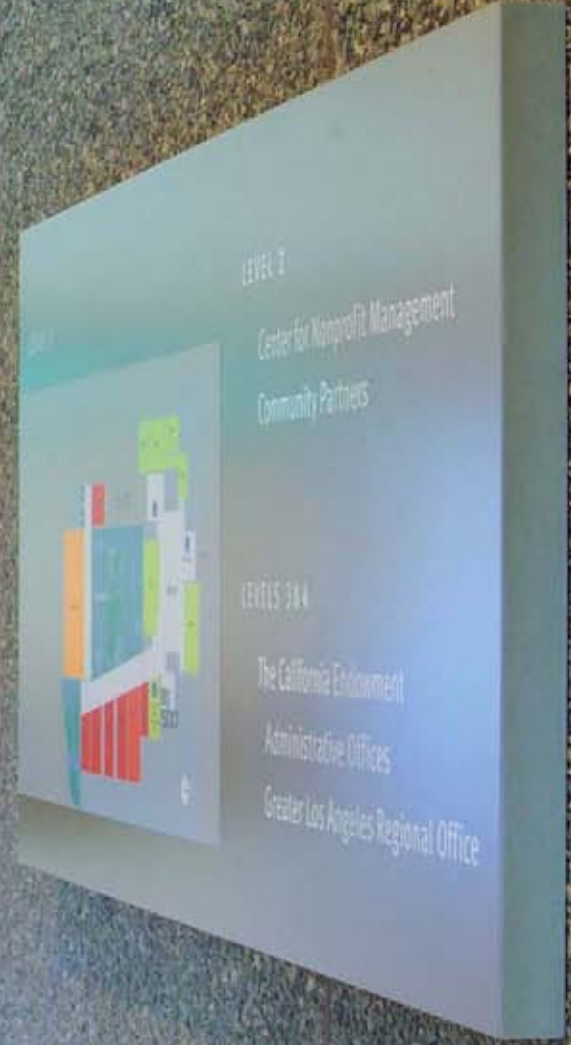

Effective architectural wayfinding represents positive spatial organisation; furnishes cognitive maps; and establishes destination zones and information sequencing that allows people to quickly grasp their environment. Ariadne facilitates dynamic wayfinding so your visitors can navigate unfamiliar surroundings and you can establish effective communication.

Ariadne creates efficient communication
for versatile workspaces.

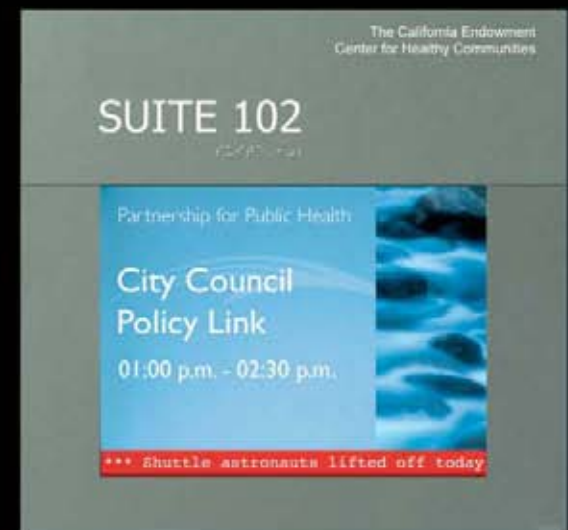

Modern workspaces host multiple events throughout the day that require information that changes hourly.

Creating colour-coded designation zones helps guide visitors and staff to the right place at the right time, minimising confusion.

Ariadne automatically updates room information screens at the right time from a central location.

Inform...

Ariadne improves operational performance and enhances visitor experience by making it easy to communicate information instantly. Efficient communication of relevant information to visitors and staff is critical to creating awareness, initiating action and producing positive results.

Ariadne works seamlessly with traditional signage to guide people quickly and efficiently to their destinations.

Integration into new or existing architectural environments creates a positive customer experience and reinforces your brand.
